

Regional application

Use this policy only for orders delivered to Australian addresses.

Required checks

Verify delivery, item identity, reported condition, report date, and available evidence.

Customer choice

Where the matrix offers more than one remedy, record the customer's selected option.

Safety issues

Do not wait for ordinary review when the report describes smoke, overheating, electric shock, or fire.

LOOK AHEAD

Exact eligibility windows and remedies appear only in the visual matrix on page 2.

Resolution matrix

Match the verified issue category and reporting window to the approved outcome.
